

HydroFlo Permeable Paver Advantages

HydroFlo Permeable

Competitor's Paver

Both images taken shortly after installation

HydroFlo Permeable

- ▲ The ONLY Permeable concrete paver!
- ▲ Water goes directly through the pavers
- ▲ No large gaps, only 1/8 inch (3mm)
- ▲ Will not plug (debris, silt, etc.)
- ▲ Easy to maintain
- ▲ Easier on wheelchairs, heels and walkers
- ▲ No gravel to maintain or slip on

Competitor's Paver

- ▼ A "gap" style paver
- ▼ Water ONLY goes through the gaps
- ▼ Up to 1/4" gap
- ▼ Gaps can plug with debris
- ▼ Much harder to maintain
- ▼ Potential problems with wheelchairs, heels, etc.
- ▼ Loose gravel, *even on new projects*

The choice is clear... for the environment, safety, and maintenance. Select HydroFlo™ Permeable pavers!
